The author of the present publication has undertaken the task in the hope that it may be of use to students of practical botany, and has based it, as it should be, not only upon material supplied by libraries, but also upon actual collections in the field. The only handbook of the kind still extant, he believes, is Mr. Daniel Cooper s Flora Metropolitana; but this is now out of date, and with its numerous references to the Botanist s Guide of 1805, and other ancient authority, is unadapted to the requirements of the day. Moreover the arrangement of the work is confused, the nomenclature often obsolete, and there is no index to the species. It is a well-known fact that vegetation everywhere alters to a certain extent with the lapse of time; it does so to a marked degree in the neighbourhood of London, where the disturbing elements of clearing, draining, building, enclosing, are perpetually at work. Consequently, very many of the suburban localities indicated by Mr. Cooper have long disappeared, together with the plants which grew there; and what were once rural solitudes are now portions and parcels of this vast metropolis. The neighbourhood of Putney is still tolerably productive, so also is Hampstead Heath; but there is little out of the common to be obtained in Epping Forest nearer than Loughton. Blackheath is a bare common; Greenwich marshes have been drained and converted into market gardens; those below Woolwich, into pasturage; a small...
