Bank rate, and that the Bank rate is also at times influenced by the market rate, 4839-4848. 4864-4874 Influence of the Bank with regard to the rate, at periods when the supply of money in the market is so low, as to compel the public to have recourse to the Bank; this is especially the case towards the end of each quarter, before the payment of the dividends, 4840-4844 Effect of a diminished circulation in the hands of the public in giving the Bank a control in regulating the rate, 4844-4848. Report, 1857--continued. Chapman, David Barclay. (Analysis of his Evidence)--continued. Anything like a panic has the effect of driving the monied interest to the Bank for supplies of money, . 4548 Circumstance of there having been an increase in the paper circulation for a few weeks before the payment of the dividends in the...

Reviews

The publication is straightforward in study safer to recognize. It is written in straightforward words and never hard to understand. It has been printed in an extremely straightforward way and it is just after I finished reading this book through which basically modified me, affect the way I think.

-- **Percy Bernhard**

Extensive information! It's this type of excellent study. I have read and I am sure that I will go through yet again once more down the road. Once you begin to read the book, it is extremely difficult to leave it before concluding.
